High School Senior Portrait Sessions

Ultimate Session

Three to four hours of custom photography—you call the shots. Unlimited locations, unlimited changes, unlimited possibilities! Within three weeks I will issue up to 250 digital negatives(including up to ten retouched files) that you'll have full copyright release to print, upload, or download—whatever you'd like to create. \$720

Most Popular Session

This is for the high school senior who wants both the traditional studio portraits and an outdoor photo session! The session begins with a formal portrait session at the studio or IN YOUR HOME! Lights and backgrounds will be set up to create the traditional portraits that have been the standard for so many years. We then proceed to a local park, lake or fun location for unique portraits that define your style. Any and all props are encouraged as well as pets, friends or siblings that you want to share in this unique experience. This session lasts two hours with unlimited clothing changes. In lieu of indoor portraits you can also choose two different outdoor locations. Within three weeks I will issue up to 150 digital negatives (including up to five retouched files) that you'll have full copyright release to print, upload, or download—whatever you'd like to create! \$425

Standard Session

Your high school senior photos will be taken on location in the Twin Cities! Suggestions include Como Park, St Kate's Campus, Mississippi River, or even at YOUR house. This session will last up to an hour and includes two clothing changes. You're encouraged to bring props, siblings, friends or pets to this session. Within three weeks I will issue up to 80 digital negatives(including up to three retouched files) that you'll have full copyright release to print, upload, or download—whatever you'd like to create! \$275

Mini Session

This session lasts a half hour and will be for a single outfit at a St Paul location. Within three weeks I will issue up to 40 digital negatives(including one retouched file) that you'll have full copyright release to print, upload, or download—whatever you'd like to create! \$150
